What is STOPit?

STOPit is the leading technology company providing a comprehensive software platform that mitigates, deters and controls bullying, cyberbullying, harassment and other harmful or inappropriate conduct.

The STOPit platform is available to schools, universities, businesses and governments both in the United States and around the world.

The STOPit mobile app is a simple, fast and powerful tool which empowers individuals to protect themselves and stand up for others online, on social media, in the classroom or in the office. DOCUMENTit, a robust incident management system, empowers administrators and management to get in front of issues to mitigate risk and adhere to the ever evolving compliance landscape.

What tools does the STOPit platform provide our school?

The STOPit platform includes a mobile app and a robust back-end tracking and management system. STOPit's mobile app provides users with fast, secure and anonymous reporting – all at the touch of a button. Administrators are equipped with DOCUMENTit, a comprehensive, streamlined, cloud-based incident management system that also helps schools mitigate risk and maintain compliance. DOCUMENTit is a proactive solution which helps schools save time. It is constantly at work identifying trends, sending alerts, and helping schools take control of incidents before they spiral out of control.

How does the STOPit mobile app work?

Once the STOPit mobile app is downloaded to the student's phone, it provides them with several powerful features. The Report feature can be used to anonymously submit an incident report consisting of an image, video, and/or text to school contacts who can respond to the incident and get help to the student in need. The STOPit mobile app also allows for anonymous two-way communication between students and school administrators with STOPit Messenger.

What is DOCUMENTit?

DOCUMENTit is STOPit's comprehensive, streamlined, cloud-based incident management system. School administrators use DOCUMENTit to track and manage incidents submitted via the STOPit mobile app. DOCUMENTit is a proactive solution which helps schools save time. It is constantly at work identifying trends, sending alerts, and helping schools take control of incidents before they spiral out of control. DOCUMENTit is completely customizable for schools. Administrators can set custom alerts, incident tags or other trackable factors, create folders, and can organize their data however is most beneficial. Schools can also assign or escalate incidents, as well as email parents, directly through DOCUMENTit. DOCUMENTit also helps ensure regulatory compliance.

What student information does the school or user need to provide to STOPit?	<p>None! STOPit does not require any end user information whatsoever. Information provided by STOPit app users is also kept private and secure. Please read our Privacy Policy. To learn more about our commitment to keeping data provided by students safe, learn more about the Student Privacy Pledge, to which STOPit is a signatory.</p>
What information does STOPit obtain when using the app?	<p>STOPit may automatically collect certain information from a user of the STOPit app, such as IP address; details about the browser, operating system and/or device/hardware; general location, if available; your activities when using our app; and other logging information, including the date and time of your use of the STOPit app. Please read our Privacy Policy.</p>
Is it really anonymous? Can the school find out who my child is through the STOPit app?	<p>STOPit is truly anonymous. The school has no ability to identify the submitter of a report or message. At their discretion, an end user may choose to voluntarily provide identifying information in the content of their report or message. Please see our Privacy Policy – Making Reports with STOPit & How “Anonymous” Reporting Works for details.</p>
Can STOPit be used by children under the age of 13?	<p>The STOPit app (and its browser-based version) may be used by children under the age of 13. We urge parents to contact the school's administration to learn more about how the school uses STOPit and the data we provide them.</p>
What information do you collect or share about my child, and what are my rights as a Parent?	<p>We only disclose your child's information to third parties which are required as part of the services that STOPit provides, and as described in our Children's Privacy Policy. To learn more about our commitment to keeping data provided by students safe, learn more about the Student Privacy Pledge, to which STOPit is a signatory. As a parent, you have the right to review the personal information that we collect from your child who is under the age of 13. You may also request that we delete this information and refuse to allow any further collection or use of your child's information. If you would like to exercise any of these rights, or have any questions regarding your child's use of STOPit, we urge you to first contact officials at your child's school, which has provided them with access to STOPit, and we may direct you to them. You may also contact us, using the contact information below. We may ask you to provide additional details, including verification of your parental status, to protect your child's privacy. Please read our Children's Privacy Policy.</p>
Who receives the reports my child submits via STOPit?	<p>Reports and Messenger messages will be received by the contacts designated by the school. Please check with your school for more information.</p>
Can I as a parents use the app to report incidents?	<p>Parents access of the STOPit app varies from school to school. If your school makes STOPit available to parents, then yes, you may use STOPit to report incidents.</p>
