

NEW MCEWEN HIGH SCHOOL UPDATE

WELCOME

Throughout the building of the new McEwen High School, we plan to publish a monthly update during the first week of each month. We hope this will help keep the community, alumni, parents, students, faculty, and staff well informed. Enjoy the first edition of the New McEwen High School Update!

BUILDING PROGRESS

During the second week of April 2023, heavy equipment and work crews began arriving on the MHS campus to prepare the site for construction. Crews have begun removing the topsoil and gravel on the north side of the MHS (6-8) building. They are building the base to prepare for the footings and concrete. On the south side of the MHS (6-8) building and the north side of the Ag Building, they have removed the topsoil and started the process of building up and leveling the ground. Additionally, the beginning of the removal the pavement in the parking lot on the east side of the MHS building began today, May 1, 2023.
